- ^a The total levy is the levy for General Fund real and personal property taxes and does not include the property tax levy for Special Revenue Funds, i.e., for Refuse Collection and Community Centers.
- ^b Current collections do not include tax collections for the Special Revenue Funds or payments in lieu of taxes. As a result of revised accounting procedures, from FY1979 to FY1985 the collection of penalty and interest payments for late payments of current taxes is included in the collection of current taxes rather than under the collection of back taxes.
- ^c The percentage of levy is not the collection rate since current collections also include penalty and interest payments on current taxes.
- ^d Collection of back taxes for FY1975 to FY1985 includes penalty and interest charges on past-due taxes. From FY1979 to FY1985 revenue from land redemptions is included under collection of back taxes.
- ^e The FY1979 actual collection excludes \$823,471 in prepaid real estate taxes.
- ^f Data include regular, elderly, and disabled tax relief exonerations, refunds, Norfolk Plan real estate supplemental tax levies, and personal property omitted tax levies.

^a Formal complaints are those which have been assigned a Human Rights Commission case number.

^b Informal complaints have been investigated by the Human Rights Commission, but have not been assigned case numbers because the agency cannot provide further assistance, a discrimination case does not exist, or the case is out of the agency's jurisdiction.

^c This number includes all persons inquiring with the office who have problems with their employment, housing, private education, credit facilities, County services, or public accommodations. It excludes all calls for general information only.

^d Refers to the number of plant and insect diagnoses completed and to the number of soil analyses completed.

^e Indicators represent hours of staff-time spent in each activity.

GLOSSARY OF TERMS

ADJUSTED GROSS INCOME is reported on State of Virginia Income Tax Returns.

It includes gross income from all sources not specifically excluded minus certain deductions. Examples of major sources of income that are excluded include Social Security benefits and employer contributions for private pension and health programs. The data cover all people required to file a return and include persons with incomes below filing requirements who were subject to tax withholding and claimed a refund.

ASSESSED VALUE refers to the estimated value of property for use in taxation.

AT-PLACE EMPLOYMENT refers to the jobs that are filled and are located within a particular area.

AVERAGE HOUSEHOLD SIZE refers to the average number of persons residing within a household in a particular area. It is computed by dividing the total population in households (excluding group quarters, such as nursing homes) by the total number of households in that area.

BIRTH RATE refers to the number of births per 1,000 persons in the population within a specified time period.

CALENDAR YEAR refers to a one-year period beginning on January 1 and ending on December 31.

CIVILIAN LABOR FORCE includes all persons 16 years old and over who are either employed or unemployed but actively looking for work and available to accept employment.

CONSUMER PRICE INDEX (CPI) is a concept developed by the U.S. Bureau of Labor Statistics. It is used to measure average changes in prices over time of a fixed market basket of goods and services. The particular index used for the Washington, D.C. area, the CPI for all urban consumers, covers approximately 80 percent of the total noninstitutionalized civilian population. The CPI reference year is 1967. This means that if the market basket costs \$331.10 in 1986 in the Washington, D.C. area, these same goods and services originally cost \$100.00 in 1967.

DEATH RATE refers to the number of deaths per 1,000 persons in the population within a specified time period.

DEVELOPMENT PROCESS includes the rezoning of land, site plan submission and review, the issuance of building permits, and the construction of the physical structures. A structure is considered to be in the development process from the first request for rezoning of land to the issuance of a Residential or Non-Residential Use Permit.

DISPOSABLE PERSONAL INCOME consists of personal income minus personal taxes (federal, state, and local), non-tax payments (such as fines, fees, and penalties), and personal contributions to social insurance.

EFFECTIVE INTEREST RATE is the contract interest rate and additional fees (such as points) assumed by the buyer at the time of purchase, amortized throughout the projected life of the loan.

EMPLOYED persons are civilians in the labor force 16 years old and over who are currently holding jobs.

A FAMILY consists of a householder and one or more persons living in the same household who are related to the householder by blood, marriage, or adoption.

FAMILY INCOME is a concept developed by the U.S. Bureau of the Census. It refers to the combined gross money income of all members of a family living in the same household.

FISCAL YEAR refers to a one-year period beginning on July 1 and ending on June 30 of the year cited.

FORECASTS are projections tempered by policy estimates which strive to reconcile past and current trends with current and anticipated policy.

GROSS FLOOR AREA is the area within the perimeter of the outside walls of a building taking into account the number of stories contained in the structure. Space used for interior features, such as stairwells and elevator shafts, is included in the gross floor area.

A HOUSEHOLD includes all persons who occupy a single housing unit. A household may be comprised of one or more families, one or more unrelated individuals, or a combination of families and unrelated individuals.

HOUSEHOLDER refers to the individual in whose name the home is owned or rented, or any household adult member over 15 years old if the owner or renter is not present. At any given time, only one person may be considered as the householder, although the home may be jointly owned or rented.

HOUSEHOLD INCOME refers to the combined gross money income of all persons who occupy a single housing unit. The household income can be comprised of the gross money income earned by one or more families, one or more unrelated individuals, or a combination of families and unrelated individuals who occupy a single housing unit.

HOUSING UNIT refers to a house, apartment, mobile home, or unit occupied or intended for occupancy as separate living quarters.

INDEX CRIMES are any of the seven most serious felonies whose frequency of occurrence is regularly analyzed to provide an index of the general level of criminal activity. Index crimes include murder, forcible rape, robbery, aggravated assault, burglary, larceny, and motor vehicle theft.

LABOR FORCE includes all persons 16 years old and over who are either employed or unemployed but actively looking for work and available to accept employment, plus the members of the Armed Forces.

MEAN (or average) is the sum of scores divided by the total number of cases involved.

MEDIAN refers to the middle value. The median divides a distribution into two equal parts, one half having values above and one half having values below the middle value.

MONEY INCOME is a concept developed by the U.S. Bureau of the Census. It is the amount of income before deductions for personal income taxes, Social Security, bond purchases, union dues, Medicare deductions, et cetera. Excluded is money received for the sale of personal property, capital gains, imputed and in-kind income, gifts and inheritances, and other types of lump-sum receipts. Money income is similar to personal income except money income excludes imputed and in-kind income.

NATURAL INCREASE is defined as the total births minus the total deaths.

NET DEBT is the difference between total long-term indebtedness and self-supporting debt. Net debt is paid from the general funds, that is, from tax revenues. Self-supporting debt, such as sewer bonds, is paid for by usage fees or taxes.

NET IN-MIGRATION is defined as the excess of people moving into an area over people moving out of the area.

PER CAPITA INCOME is the average amount of total personal income available to each person residing within an area. It is computed by dividing the total personal income earned by residents within an area by the total population within that area.

PERSONAL INCOME is a concept developed by the U.S. Bureau of Economic Analysis. It is a broader income concept than adjusted gross income or money income. Personal income consists of wage and salary disbursements, profits from businesses that are not corporations, net rental income, dividends, personal interest income, and transfer payments (such as pensions and welfare assistance). It includes wages and salaries paid in-kind, the net rental value of owner-occupied houses, and the net value of food and fuel produced on farms. Capital gains are not included because they are not attributable to current economic activity.

PLANNING DISTRICTS are the 14 areas into which the County is divided for planning purposes. The planning districts' boundaries do not change.

POVERTY THRESHOLDS are based on the Social Security Administration's definition of the minimum income that allows for a nutritionally adequate diet and adequate housing. It allows for differences in the size and composition of families. The poverty income cutoffs are revised annually to allow for changes in the cost of living as reflected in the Consumer Price Index.

PROJECTIONS are numbers based upon trend analyses utilizing statistical techniques.

RESIDENT EMPLOYMENT refers to the employment of an area's residents, as compared to at-place employment which refers to the number of persons employed in an area whether or not they reside in the area.

SELF-SUPPORTING DEBT is paid by means of service charges and not from the County General Fund. Included in this category are sanitary district bonds and integrated sewer system bonds.

A SHOPPING CENTER is a group of commercial establishments with on-site parking which is planned, developed, owned, and/or managed as a unit and which is related in location, size, and type of shops to the trade area which it serves.

SCHOOL MEMBERSHIP is the sum of all public school students present and absent from school on a specific date.

SUPERVISOR DISTRICT is one of eight areas of roughly equal population which is represented by an elected Supervisor. The districts are changed at least every ten years according to changes in population.

TAXABLE SALES reflect deposits of Virginia sales tax revenues, adjusted for the dealer discount, rather than actual sales reported by the dealer.

TENURE refers to the status of an occupied dwelling unit as either owned or rented.

- Owner Occupied refers to the unit that is either owned or being purchased by a household member, including mortgaged units.
- Renter Occupied refers to units which are not owner occupied.

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry, no matter how small, should be recorded to ensure the integrity of the financial data. This includes not only sales and purchases but also expenses and income. The document further explains that regular reconciliation of accounts is essential to identify any discrepancies early on and prevent them from escalating into larger issues.

In addition, the document highlights the need for transparency and accountability in financial reporting. It suggests that all stakeholders should have access to the relevant information and that the reporting process should be clear and concise. This helps in building trust and ensuring that the organization's financial health is well understood by all parties involved.

The second part of the document provides a detailed overview of the accounting cycle. It outlines the ten steps involved in the process, from identifying the accounting entity to preparing financial statements. Each step is explained in detail, with examples provided to illustrate the concepts. The document also discusses the importance of using the correct accounting methods and standards to ensure consistency and comparability of the financial data.

Finally, the document concludes by emphasizing the role of the accountant in providing valuable insights and advice to the management. It states that a good accountant should not only be able to record and summarize the financial transactions but also should be able to analyze the data and provide meaningful interpretations. This helps the management in making informed decisions and improving the overall performance of the organization.
